Outline of Oral Proposal Presentation

Proposal of developing a Web-based Machine Learning Application

1. Background
   a. Machine learning in News
   b. Audience of this project
      i. People not in our degree
      ii. People with interest in machine learning

2. Proposal
   a. Build a website with machine leaning algorism inside
   b. Including instruction and examples

3. Qualifications
   a. Computer science knowledge
   b. Front-end and back-end knowledge
   c. Machine learning knowledge

4. Methods and procedures
   a. Investment
   b. Making schedule
   c. Building project
   d. Final test
   e. Public test

5. Budget
   a. Time
   b. Money

6. Call to action
